About the Author

Friends, I am the Youngest Inspirational Speaker and Writer Sandeep Karande. “How to see Dreams and how to achieve it? My dream is to help people find the right path in life through this program.

I have drawn some useful information for the last ten years by studying related dreams, dreams of youth and future of youth.

I am constantly trying to reach out to people through this information in my own way (live webinars, seminars and books). In particular, what dreams should youth have and how to fulfill it.

I believe that every youth can become successful, if they use the right direction. I myself used to sit on the ground for 27 years using both hands. I was polio in my childhood. So, I could not walk, yet I never let my disability come between my dreams.

I have completed my graduation from one of the top universities of Maharashtra, which is

'Shivaji University Kolhapur'. With A grade

While working at the Multinational Company in Pune, I felt if I done my both legs operation , then I can walk . So finally I started walking.

And right now I am walking with a dream. Guiding the youth about their future. Through my own Experience Besed Program. Helping to create a strong and true youth.

I hope this book helps to show you the right direction! Sandeep Karande author

Gratitude

First of all to the beloved God who always shows me the right path and blesses me always!

My mother and Father who have always given me blessings and support. I have received the most contribution from them to move forward in my life.

My friends, and my teachers have always inspired, supported me to write! I never thought that a book will come from me, it has become possible with the support of friends and my teachers.

My friend Mayuri ji, he showed the right direction in writing this book, it would not have been possible without his inspiration.

And from writing the book to publishing, my friend Umesh Gurav ji, who has full financial support, I got a huge contribution from him.

From my childhood till date, I have earned the knowledge by reading books, I salute all those books.

Thanks to all the digital media gave me the opportunity to publish the eBook on their platform.

Gifts.

Preface

What can you find in this book?

In this book you will find some techniques and examples, so that you know that you do not need to lose anything.

This book tells that, why do we need a goal in life? The goal of this book is simple and easy! This book has been written with the aim so that the future person knows about the goal of life. And they should get new direction to do something in life.

My goal is to inspire the person through this book... If you read this book carefully, imbibe its education with heart, then you will see a change in yourself. According to the information given in the book, if you try to make changes in yourself, then you can make them according to the test, instead of following one of the testers. You can become a more useful person. You are responsible for your success, try to tell this book.

Sandeep Karande Author

1.Life changing day!

In 2011, my degree certificate came into my hands I was the only one who despite being a Divyang, I had a degree in English Subject for the first time in my village. From one of the top universities in Maharashtra, this is ‘Shivaji University Kolhapur Maharashtra’. It was so much fun. It seemed as if I had touched the sky!

And I should also be happy; I was the first person in my family, who would take so much education. It is obvious to be happy. It seemed to me that now I can apply for any government class one post. And according to that, I started preparing. After studying for some time, I got a job offer from Poona in a private company. So I immediately joined, as my family was not a financial background. And after working for 1 year there, I realized that this job is not for me. I could not find anything interesting in it. Did not feel like I should do something different. I was feeling inside from inside, but could not understand what to do, how to do it.

Then I leaved the job and joined another multinational company. After joining multinational company, ! my Good days were going on. In the company too, my Relation was a good build with friends, and I got an early promotion on the performance of the work. As the days were going by, but it was sad from inside. I used to think that man I'm making a mistake, I shouldn't. Because there was no mind in my work, but I could not understand what to do.

It was Saturday. On Saturday, 70% of the people in the company are mostly on leave and only 30% of the people only come to work. And in this 30% I was also. Being Saturday, I finished my work soon.

I was cursing myself inside. I felt myself weak because I was not able to make my own decision. I did not know what to say in life. Confuse had already taken place, and where I was working, I did not feel like it and I felt that inside I could do something different! . Something big is going to happen, I used to think from inside. Thinking like what to do, think like that. I went alone to drink tea in the canteen.

Did not feel like drinking tea. Many thoughts kept coming in my mind like this. At that time, there was a lot of depression. It is said that, if a good thing

is going to happen, then such a critical situation is prepared before that. But we humans do not know what is going to happen next. Good or bad .

But, I believe this is a blessing from God. Was sitting in his thoughts like this, then after some time a friend also came there to drink tea and on seeing me said, Sandeep, what are you doing here? What happened today?

Your face looks very dry. Try to hide as much as we can, but our friend only knows. I was also troubled for a long time. If I could not keep up, then I spoke the matter inside me.

I do not feel like here. Must do something different. But I do not understand what to do, my friend said me but do not see your performance. That you are not enjoying the work. What should I do, friend! For that The Company gives us money.

After staring at me for a few moments, she said, Sandeep, you should guide me so much, I do not have much knowledge, but still want to give a suggestion as a friend. I also wanted the same.

Immediately I started speaking, no matter what, tell me something, and please tell me the way!

So bid is a book, read it, maybe you will find some way. As she called the name of the book. Well I blossomed with happiness.

I said with happiness, oh my good thing! What book is this? Seeing my enthusiasm, the friend said, oh wait, what is right? Hearing the name of the book, you have blossomed in happiness. I said, "Tell me what," the book is my world. I cannot live without a book and writing is my hobby".

I am no more Again when I asked the name of the book, she told there is a book called 'The Secret', written by Rhonda Byrne! Read the book once, maybe you will get some guidance.

What should I tell you guys? There was no place for happiness. I bought that book from 'Book stall' after office, the same day and

I started reading as soon as I came to the room. The book got so entrenched that I did not know when it was time for dinner at night. As I was moving forward in the book. By the way, I was getting answers to my question. As soon as I finished reading my book, a wave of happiness ran inside me. What exactly do I have to do, and where is my destination. I was slowly realizing it. My dream was visible to me from that day because of friend and Book.

Since that day, I kept moving forward. That day became one of my best days. forever! Friends, do the same thing in your life, "like what you are doing right now, or do what you like". And I hope so. The book I wrote Will work to show you the right direction.

2. You have everything!!

Don't you have? If I ask you this question, you will get a lot of answers. I don't have money, I don't have a car, I do not have a home, and I do not have a bank balance. I do not have education, my color is not good. I'm fat, I'm thin. I have physical hindrance.

Many such excuses will come out. But I would like to tell you. You have everything. Just you don't agree. Just you don't believe it. You just did not take out that talent. I think if you have a good thinking mind. That is enough to change life. That is enough to live a good life. According to me,

Now you would think that nothing happens with just the mind. He has good hands and feet, sharp mind. Being rich, being beautiful Other things also matter a lot.

Friends, this is just an excuse. If that were the case, a person like 'Helen Keller' could never become a speaker, a writer. Helen Keller had nothing whatsoever. Apart from a healthy mind, Nevertheless, he made history. Won the heart of the whole world on the basis of his writing.

The whole world knows Surdas. Surdas He was blind from birth. Nevertheless, he ruled the hearts of the people. He was a great poet. Even after being blind he became a great poet. What was it, he had nothing but a smart mind, yet he had won the heart of the whole world. .

Everyone knows the late doctor APJ Abdul Kalam. The whole world knows. They had nothing. Still he became a missile man.

Dhirubhai Ambani knows the whole world, before going to God, He made wealth of crores of rupees for his children. What they had was nothing. In the early days, he worked on petrol pumps. From where to where he traveled. What was it, he has a good mind. friends this world is full of examples who have created history.

And I think so. You have everything. If you have a good body with a good mind, then what is lacking. Just you life Must see from a new perspective. I think "No man can be as rich as you on this earth."

3 Which category do you fall into?

Do you come in negative category or in positive category?

Friends because people who have negative thinking are always brave on excuses.

- 1) People who have negative thinking will not always be with me in every situation. They keep this attitude.**
- 2) People with negative thinking always see problem in any situation.**
- 3) People of negative thinking always search evil in others in any situation.**
- 4) People who have negative thinking always always make mistakes of others in any situation.**
- 5) People who have negative thinking always try to stop any work in any situation.**
- 6) People with negative thinking are always unhappy in any situation.**
- 7) People who have negative thinking always talk behind the back in any situation.**
- 8) People with negative thinking always come in the way of always doing something in any situation.**

A lot of such lists can be made by Bahanoki. If we want to make...

And people with the same positive thinking always say that.

.

- 1) I can do always have positive thinking people.**
- 2) People who have positive thinking always have a solution with me.**
- 3) People who have positive thinking always search for the good in others.**
- 4) People who have positive thinking always praise work!**
- 5) People who have positive thinking always help to go ahead.**

6) People who have positive thinking are always happy.

7) People who have positive thinking always speak in front of everyone.

8) People who have positive thinking are always interested in doing something new.

In which category do you fall? Even if you fall in the positive category, you should always keep learning.

If you fall in the negative category, you still have a good chance. To change yourself, you can change yourself to

become a positive and successful person! And you can move forward in your life.

4 Not having any goals in life...?

Friends, I know when I talk to people who have lost and have stayed in one place. What are the reasons why these people are not moving forward in life and are not taking startups whenever I. I go here and there in a crowd of people. I get people at the bus stand, at the railway station and at the airport. Wherever I feel like Talk to people after going there, I start talking with people, then I know that because of their failure, I get to know the reason for being nervous in life. And when I talk with him, when talking with him, it feels like he has no goal in life. He is living life aimlessly.

If they do not have a goal, they do not know where to go. Some people know, Still he does not try to leave. Do not take risk.

A few days ago I met a friend named Pradeep in Nashik Maharashtra, so before I spoke with him, he did not know from his tired face and body language that he was a well educated. When I spoke with him, it came to know that Pradeep ji Well educated man. As I continued the innings of my meeting, I found many unknown and unbelievable. I asked about things. If you are so educated, what is your goal? What do you want to do in life! Or where do you want to go in life, and then Pradeep Ji gave a very dangerous answer.

1) His first answer was. I have no goal, I don't want to do anything, and I don't know what I'm going to do or where I'm going to go in my life.

2) And the second answer was his. I do not know where to go in life. But God will take you wherever. Only he is going to go and nothing else.

Friends, there are many young people like Pradeep in this world. There are people who have no dreams; no one has any goals for what to do in life. Those people are still relying on God even in the 21st century. Friends, I would like to tell you. The day God has sent you to this earth, after giving everything, the responsibility of God ended. Right now, it is your responsibility to handle yourself.

5 Why is goal important in our lives?

Rail without engine means life without target. Neither can go ahead. Neither can go backward. Life without a goal is like a flower without fragrance. Life without a target is like an aircraft without a pilot, it does not make any sense. If you do not have any goals in your life, then you are alive and like a dead person. No goals are needed for the dead.

Friends, we need oxygen to stay alive. In the same way, it is very important to have a goal to move forward in life. Living life means, just eating, drinking and sleeping is not a game of these three letters. There is much more to this. All the people in this world. Have achieved success in one's own life. His first goal was to "set the goal" and he set and achieved the goal.

Only then, today the whole world knows all these great people. Bill Gates, Warren Buffet, Steve Job, Swami Vivekananda, Dhirubhai Ambani, Rattan Tata and Narendra Modi ji, everyone praises their success Explains, then set the step goal first. This will be the common point of all.

“Without goal we estimate our life” Sandeep Karande (Inspirational Speaker and writer)

Aim can give you the right direction. When you set a goal and move forward in life, what work do you need, and which is not. If you know this, then you will prepare yourself accordingly. Your subconscious mind will inspire you to work in the same way.

If you want to move in the right direction, then you have to set a goal, if you have not set any goal. Nevertheless, you have come out of the house as soon as morning. This means you have taken the car without a break. The car will not stop without a break for long drive, because there is no brake in it, but if you fall into an unknown place, you may get hurt and even die.

Our life is like this. In order to move in the right direction in life, it is very important to have a goal. For some time, you will travel without goals in life. But as soon as the difficult times come, you will be shattered. You might not come out of that if you are able to do this, then you have to plan first! It is very important to have goals in life.

‘If you have caught the path with one goal! ’

So no power of this world can stop you from going towards your destination.

Friends, this is the story. Ansar Sheikh, who passed the IAS exam in 21 years. The passion for reading and the desire to improve life gave Ansar Sheikh that success. This is what most youths of India do. This is the result of their hard work. Ansar, in his first attempt, attained the rank of 361 by passing the UPSC IAS-2015 examination at the age of only 21 years. His father used to drive an auto and his mother worked as a laborer. His father had four marriages due to which there were many people in the family, there was always a problem of eating and drinking. All her sisters were married at an early age due to lack of education. And brother left studies after sixth grade and started working at uncle's garage. Under the influence of some people, father also wanted to quit Ansar. But his teacher explained then his studies started again. Ansar's brothers used to send Rs 6000 to Ansar every month. Studies In the early stages of doing English, he did not want to speak in college due to not being good, but never gave up. When going for extra class, there were many people over the age. Whenever Ansar used to ask a different question, the whole class used to laugh, friends used to laugh but, it never allowed this to happen on the heart.

His focus was only on his goal. After all, he realized his dream of becoming an IAS. No matter how many challenges there are in friends life. If your goal is sure You will stay together. Ansar's father worked as an auto driver and mother laborer. Still Ansar fulfilled his dream because his goal was clear, friends, this story teaches us that if your goal is clear and you are trying in the right direction. If you continue walking, you can easily reach the floor by default.

Reference from jagran josh newspaper article may / 20/2020

6 We fall short in dreaming.

“Friends, we do not stay behind because of our talent, but we do not dream. If we fall short in dreaming, then we would be left behind. ”.... Sandeep Karande author

So I want to put a bitter truth in front of you here. Believe it or not but think, when a child is born, then they are raised according to the knowledge of their parents. As such, as the child grows up, his / her arm's complex starts to grow gradually according to the climate of the Society. The parents of their parents gave the same knowledge to the child's parents for their child. And according to that. Let's try to enlarge. They do not have a dream. They do not have any goals or their children grow up to be like themselves. Get married Create children, and take care of us in old age by making us grandparents. This is just a dream.

But the late doctor APJ Abdul Kalam always used to say

"Dreams are not what you see in your sleep. Dreams are those that do not let you sleep.

So beautiful defined in two sentences.

To be an inspiration, take inspiration in life. I say dream, dream like your dreams when your friends will listen, when your family members will listen. When your dream school friends listen, they should laugh after hearing your dreams. If you haven't laughed. It means you are dreaming very small. If you laugh it means you have dreamed right, friends without a dream. Life without meaning does not mean anything.

Rattan Tata always says, "The decision you have taken can never be wrong. You must have the courage to prove it. "

Friends, after reading the words of such big people, the body should be stirred. Heart must be crazy.

"Set your goal to achieve the dream seen and do not give up until it is achieved ..." Swami Vivekananda. The Wright brothers had a dream before flying an airplane. Doctor APJ Kalam had a dream before becoming a Missile Man. Before the invention of electricity, he had a dream from the edition. Friends, when you dream, then you will fulfill the dream. If you do not dream, what will you accomplish?

Once asked a rocket, why do you go at such a speed? So the rocket gave a very dangerous answer. When there is a fire in your backyard, then you will know how I run so fast. What is the use of life of comfort? If you do something, the world will move. The world will salute

**“Without dream we can’t imagine our life”Sandeep karande
(Inspirational Speaker and writer).**

Learning points

All our dreams can come true, if we show the courage to fulfill them. Dreams that you wish come true.

7 If you want to become a winner, then set a goal.

If you want to become a winner in your life. If you want to brighten up some good names. If you want to earn good money. Not only this. If you want to achieve whatever you want in life, that is, you want to become a doctor, you want to become a businessman, you want to become a leader, then first you have to set your goal.

Any goal is achieved when it is first thought in your mind. It then takes a more realistic look at working on him. People say that the Taj Mahal has been built only once.

According to me the 'Taj Mahal' has been built twice. First time in the mind of the maker and second time in real terms, which we all can now see in reality. Because dreams are never air. If you have seen it, it can also be fulfilled. All the things that are man-made on this earth, have been made twice, which is our primary goal before any thought comes to mind through thoughts.

When we work on it and actually bring it, then our final is done. In life, setting and achieving goals is like a semi-final and final match of a cricket match. Our victory is declared only when we go from semi-final to final and win the final. In the same way, semi-finals are these thoughts coming to our mind.

And when that thought appears in real.

To be a winner in life, every time we have to set a goal and try to achieve that goal, then we win. After achieving that goal we are called winners.

Bhanu Saini ji writes in one of his poems. (Hindi translated in English)

**The goal is to achieve it.
Come on, go ahead and show you something.
Keep up my friend because,
The goal is to achieve it.**

8 Can we learn from our past?

"We should not regret the our past, nor be worried about the future; Vivek-wan people always live in the present." - Chanakya

We can learn a lot from our past. Forget what happened in your past. You cannot change it. In the past, sometimes someone has misbehaved with you, and think of it again and again to hurt oneself. This can be a big mistake. Just sitting on negative thoughts like this does nothing. You have to get rid of it. Like a doctor, one should not wait till the last operation because at that time you will be in a very critical condition. If you are scared then it is important to get out of that condition. It can be difficult. In the initial stages it is necessary to give you some time to reduce the fear.

You should remove the negative thought soon. If you keep it in your mind at such a time, then it has a wrong impact on your life. To overcome fear one must face fear because!

"Win after defeat is the way of life."

9. If you like being a little kid, you can win.

I like small children very much, and how cute and how perfect children are, they have to do nothing to become perfect. Because of that, they are already perfect. And they also know this. They know that everyone in the house likes it. Everyone loves me, and then they are not afraid to ask for anything from anyone. People speak their mind without hesitation, when the children are going to cry, when they are going to laugh and when they are going to get up, let everyone know without knowing it. Not only this, the people of neighborhood also know this. If the child also cannot live without love, but the same child tries to live without love when he grows up. (Reference from you can win book page 194)

Are you ready to be a baby again? Ready to do child-like actions? Maybe you feel a little weird. But when you create history, you have to do such childlike activities. Otherwise, otherwise people spend their lives just as they consider themselves wise. You have to decide. History is created, or you have to spend your life reading history.

Make yourself so capable that what you are going to do as soon as you see the time of the clock, and what decision you are going to take in the office, it should be known without telling your staff. The day you will not go to the office. The office clock should stop that day. Waiting for you

Friends, nothing is impossible in this world.

10 Enthusiasms.

"Do not lose your enthusiasm even after continuous failure; this symptom is part of the life of a successful man".

If you are doing any work, or you want to do any work, then if you do that work without enthusiasm, then you will find work. You will experience a servant feeling while doing that job. You will get tired of working. You will not mind working. And after some time your work may fail. There is less chance of getting good results from that work. Then you will get angry. The likelihood of going into depression increases.

If you do the same thing with a responsibility. If you do the same work enthusiastically, you will not find work. You will enjoy the same work. Will be enjoyed. When your work is finished, you will not even know and you will be used for that work.

The result will also be good. When you get good result then by default you will start doing that work with you and heart.

Enthusiasm and success go hand in hand. But the number of enthusiasm comes first. And confidence later and it extends to others. We talk to a person. Enthusiasm is a habit; it can be adopted and practiced as well.

Several decades ago, Charles Job, whose annual salary was a few millions of dollars, asked him once, is he so much because of his expertise in steel making? Looks happy he replied.' My biggest capital is the plan to encourage people 'and encouragement and appreciation is the way to fully develop a person's abilities. As long as life is alive, the excitement and desire of not becoming dead before death makes an ordinary person extraordinary. When I make a mistake, give me so much power in me that you can change yourself, and when I do the right thing, give me so much power, do not let me be ego. This is a good philosophy of living.

11. Continuity is the key to success...

Continuity Friends to be ahead in life, it is very important to have consistency in our work. Being consistent is very important. It is very important to have consistency.

"8 hours of hard work is behind every two minutes of humor". unknown

It is not so easy to achieve anything in life. He has to work hard day and night. For a 10-second game in the Olympics, a player has to work 10 hours of hard work for five consecutive years, then the game can be won. If a student has to top the board, then they have to study hard day and night throughout the year. If a cricket player has to show his game on the ground, then he has to practice before going to the ground. A good movie can be made of 3 hours if one has to work day and night for thousands of people to make that movies before release in any movie theater. Any country is safe when their forces work hard day and night. Even if a child is born from the mother's lap! Before that, the mother has to work hard. Nothing in this world without hard work.

Do not meet, if you want to move forward in life. If you want to win in life, then hard work is not an option. What a beautiful someone said

"Practice makes a man perfect". Without practice we cannot bring quality in our work. If we want to bring quality in our work. If we want to produce the result, then this practice is compulsory.

"Without practice we can't do something better"

.... Sandeep Karande (Inspirational Speaker and Author)

Once I was traveling by bus from Pune to Mumbai. The bus was packed with people. There was no free space to keep. As soon as the bus was started, the bus conductor started going to everyone speaking tickets to get their tickets. Started paying money I saw, so many people didn't have change. Many people had 500 and 2000 notes.

At that time the bus conductor was requesting everybody that, I do not even have small ones. Please give change and many of them did not have money change. So the conductor gave him a ticket but, he said to take the money later. As soon as the work of cutting the ticket of his entire bus was over, he came to his seat and started to book his account, so when I saw him, a lot of questions started coming in my mind. After some time the bus conductor returned the

money to those whose money was left. I was surprised to see all this. I wanted to ask him some questions. My waiting time was over, and I asked him a few questions. Sir, were you a topper in math's in your school, or in college?

Hearing my question, he started laughing and said no, son, I have failed twice in the tenth. In the third attempt, I have passed.

I found it very strange, man! It has failed twice. And yet how can one do such a difficult task so easily, and I again got a desire to know something and I asked again. Sir, but what you are saying that you have failed twice, how do you do such a difficult task so easily. So I started laughing and said to me, my friend, I have been doing this work for the last 20 years. This is my duty; I have been doing it for the last 20 years. I am doing the same thing every day for 8-10 hours. There is no change in it. Now it has become so easy. For me, if a passenger says it by mistake. Even if I had given 2000 note instead of 500, I catch it as his fault.

I am so perfect now. I was stunned to hear his answer. So they were going ahead. This is not a big bath. Which bath is not available in it, you can also.

There is a slight difficulty in the initial. But as soon as you do, practice will be done. 1 day, 2 days, 3 days, 4 days, as the days go by, the months will end. You will become an expert when the years pass.

You will master your work, because you do any work on a continuous basis. That task seems a bit easy to you. You do not need to work in it later. It starts being automatic. I felt great, I was happy too. I became very inspired and in the story I am putting it here in front of you through this book. We learn from this story.

- 1) If you do the same thing over and over again, you will become a master in it.

12. The fruit of waiting is always sweet.

Patience, perseverance, and sweat are a mixture for success.

Friends, in order to be successful in life, a person has to follow certain rules. Some skills have to develop within themselves and "people who deliberately develop what they need to achieve success." They become successes. "Only they get success. Is anyone beautiful? "The fruit of waiting is always sweet."

Friends, this story is very old. But this story shows everyone a way to live. In one class, the teacher was going to do an experiment with his student. The teacher brought chocolate to all the students and said that students do not have to eat this chocolate until I come in from outside. Saying this, the teacher went outside the class. As soon as the teacher came back after some time, he saw them. That some students were discussing the test of chocolate by eating it. Some students were discussing their color and there were 7 such children in the same class who were following the teacher's order.

The teacher watched all this quietly and you noted the name of the student in the notebook and asked all the children to leave.

After spending a few years, the teacher remembered the old thing. He again decided that now I have to see what these students are doing in their lives right now. As soon as the information went out, real information came in front of him. Some of the students were living their normal lives, while some were leading similar lives.

But that teacher was surprised when Jean had seven students named in his notebook. Each of them was top in their respective fields. Was living a luxury life. The teacher understood one thing.

If you have patience, you have the ability to bear the dust. If you want to do something then nothing is impossible in this world. This experiment was done by a teacher named Walter Mission and told the world that if you have patience.

"You have the ability to wait to get any right thing. So no one can stop you from being successful.

Friends, this is not just the story. This is a message to us. How to become successful in life and how to achieve success here. This is a good example of what steps we have to follow in the path of success. Truly, the fruit of waiting is always sweet. Life never moves like a straight line, it always moves like a zigzag and sometimes up and sometimes down. Everyone wants his life to last forever, but it is not possible that Karan means dead. There are bound to be ups and downs in the end life, because this is what life is called.

13. We cannot do anything better in our life without risk.

Do you know, this is the world's largest risk corner; not taking risk is the biggest risk in this world,

Either you will win with risk and become successful, and if you lose, you will become sensible. But if you do not have the risk, then you will regret your life, you will remain there and you will never be able to move forward.

There is no fun in living life without risk. If you want to live life, then live like an army jawan. If life is to be lived, then live faith like a commander. If life is to be lived, then even after taking the aeroplane from thousands of feet above, the smile of the face will never go down like a pilot. If life is to be lived, then living like a doctor is a risk in every surgery. Even then, by taking risks, they save the life of the patient.

Man is such a creature, which is afraid of taking risk and can overcome fear and go ahead. If you want to teach something in life, then learn to work like an army jawan. A young man does not know what is afraid and the young man is ready to face any challenge every moment. If you want to be successful, learn to fight like a young man, do not run away from fear, face fear, stand firm. If you want to do some extra ordinance, and then take risk in life, no mission is successful without taking up risk.

Animals, birds and animals take more risk than humans, because they have no such talent. Keep the deposit of the incoming future. Yet he does not complain to God. Every day, taking out the risk, we go out to fill the stomach. Neither do they worry about sunshine nor do they like to take the risk of rain as it is. That's why we live life better than humans

Learning points

Learn new experiences

You come out of your comfort zone

14. Nothing is impossible.

"If you want something from the heart, it takes the whole work to join you."

Friends there is nothing impossible in this world. "I am determined if I win and I believe I am a loser". Friends, you know. How much any parent suffered for their future for their children. Everyone knows the suffering of their parents. Only the mother suffers, or only the father suffers. It's not like this. Both of them suffer very hard for their children. The story is of a father living in Britain, the father being a Major in the British Army. To cover the money for the treatment of her daughter by walking 700 km, 35 days have covered this difference without shoes. What did they have extra money to pay for the treatment of their daughter? If you have a strong region. What do you have to do in life There is nothing impossible in this world. (Reference from sandhyanand Marathi newspaper article sup / 9/2020)

Moreover, you all know that in the early days of lock down people especially to go to their village for village in India. People have completed 1400 km 500 km distance walking from city to village. What did they have? It was just a strong region. Do anything and go to your village. In whatever situation. Friends "Nothing is impossible... even impossible says I'm-possible".

Learning points

There is nothing impossible in this world. We can do all that we can think and we can think all that we have not thought till date.

15 My Dream...!

"The future belongs to those who believe in the beauty of their dreams" Eleanor

Friends, I used to think. Successful people are very talented, and they are already wealthy. And the normal people would remain normal. This superstition of mine soon waned.

When I accepted life as a challenge. After doing a lot of study, I came to know that successful people constantly try, without stopping, without being tired, to be successful. This is their secret formula that I understood. Since then I have not looked back till today. In my childhood, I stopped walking due to being polio, yet I kept crawling, crawling, my entire school and college education. After spending 27 years of life on both hands, I took a decision in life.

Now I had to do anything and walk on my feet, and I operated on my feet. And started walking with Caliper. I can do it! This confidence increased in me. Now I have started walking on my feet, and I have dreamed of helping people through this book of mine, and through my live seminar.

And I started on that path. In this world many people get up in the morning and they go out of the house to work all day. They have a hope, there is a hope, we will get work like mind for some day or the other.

Success will be available in life. Relatives will get respect. One day we too will get to roam the world and we will have more money than we need! So that we will also be able to help the poor people. But when the same people return home from the office in the evening, they become completely nervous and are frustrated and fall asleep.

Everyone likes success, but how to get success. Which path do you have to walk? Due to its lack of knowledge, they are not able to make their dreams come true. That is why he prefers to live a normal life. Many people have a desire from inside. Something has to be done but they do not understand exactly what to do. Many people go to near of their dreams and give up. Many people stop dreaming after seeing the atmosphere of the world. Many people give up quickly.

So after 7 years of study, I came across some interesting, useful information. Friends, when the son of a bhargar seller takes out a class

one post, a wave of happiness spreads among the people, creating a happy atmosphere in the society. Everyone thinks it's easy. I can also. One such fellow had dreamed. While dreaming, he never thought about other things. Just dreamed and set out to fulfill. That Banda Amravati of Maharashtra. Belongs to the district.

When that fellow achieved success, then it was in front of all the media. When you hear the story of your son's victory from the mouth of other people, how happy the parents are, no one can extend them and the same happened to their parents.

Because his parents were not very educated. Didn't know much. Still taught for his children and the same child today became an IAS officer to realize his parents' dream.

Because he had a dream a few years ago.

Do not know how many nights the place to get it,

Don't know how many nights starved stomachs.

Don't know how many people had abused

Then his dream has come true.

This is the heart of every successful young man. No matter how talented you are. No matter what educational background you come from. What is your background here only and only your stubbornness, continuity and thinking power and creativity comes in handy.

Learning points

Big dreams of big dreamers are always fulfilled.

If you take your responsibility, then you will be hungry to fulfill your dreams

Gifts

Now you have read this book completely! What did you study in it? How important it is to have goals in your life to move forward in life! How important is your enthusiasm and enthusiasm for any work in your life, It read its own. Examples of such great people, how they have achieved success in their lives. The purpose of giving these stories in the book, you can achieve the same kind of success.

Just reading will not help, friends. Implementing him in my life will bring some changes only then I can believe that the purpose of writing my book was successful.

I have written this book so that I can truly help you. If you get some direction, inspiration and want to do something from this book. So I would be very happy to know that.

We were never able to meet face to face but, through this book, we got together. I pray for you, God help you, believe it and you will get success, this is my belief.
